If this is your first Android device, please congratulate yourself in joining the fastest growing Smartphone platform in the world today. To take full advantage of the Android platform and experience the Google vision of the Always-On Smartphone world. You will need to either login to your existing Google account or create a new Google account on this Android device. You will be prompted to do so when you try to open any of the Google applications, e.g. Market, Gmail, etc.

You may connect to the internet by WIFI or 3G. If you are connecting via 3G, you will need to input the APN details of your network provider manually. To add the APN details, at the home screen, press Menu -> Settings -> Wireless & networks -> Mobile networks -> Access Point Names -> press Menu -> New APN -> fill in the APN details of your provider.

You can find APN details of most Australian and New Zealand carriers from our web site - <http://portable.geek.nz/APN>

Enjoy your Android tablet.

If you need more help or information on the operations of the Android 2.2 operating system, please download the Android Users Guide from <http://www.google.com/googlephone/AndroidUsersGuide.pdf>

If you enjoy your experience with this Android tablet, please spread the word. For your convenience, you can find FAQ, Android and other related information available on our web site (hdmp4.com) very useful. To keep up to date with the latest trend in the Android world, you are encouraged to subscribe to our RSS feeds on the latest Android news and applications review/info on our web site – www.hdmp4.com

This product is brought to you by Portable Electronics Ltd – www.hdmp4.com
